

Dear FCC,I would like to modify my previous comment on this matter. I now wholeheartedly support another Petition, RM-10811, filed by the Fists CW Club WITH THE FOLLOWING MODIFICATION: I believe new Technician digital-only sub-bands should be created in the upper 25 kHz of the 20m and 30m bands. This would encourage more people to become Hams and entice them to eventually upgrade to General & Extra Class. Thank you!
